Mending Lives, Healing Hearts

“Estate planning is traditionally considered complex, scary, and expensive. That’s why FreeWill set out to build a simple tool that anyone can use to create these important documents. Many people who create their estate plans on FreeWill choose to leave a gift to a cause they care about, and we hope you’ll consider doing the same. It’s never too soon to consider the legacy you want to leave behind.”

—www.freewill.com

Here are some estate planning options FreeWill suggests:

Will & Trust - Create a free will or trust to support the people and causes you care about most even after you’re gone.

Beneficiary Designations - Document and distribute assets that your last will and testament does not cover, including 401(k)s, IRAs, and life insurance policies.

Advance Healthcare Directive - Take the lead on your end-of-life medical care decisions. Make a plan now, so your family can respect your wishes.

Financial Power of Attorney - Name a person you trust to make decisions about your property and finances if you’re unable to do so.

Everyone should make a will or living trust, regardless of wealth. Having a plan in place ensures that your wishes are known and saves your loved ones the stress and cost of intestate probate proceedings. All estate plans made using FreeWill are 100% legal and specifically tailored to your jurisdiction.
